?an

??

????

®

????

???

Aaron, can you put a better example in here—it's not compelling why we want to fragment the strokes in letters. Use a g

??

???

This section needs to be expanded and formalized. You should describe who your users were, what tasks they performed, cite others?

Aaron, please describe the XML format here. The point of describing it is to show how the format easily supports multi

In this paragraph talk about how the implementation works with the data format (i.e., how did we turn our format into

®®®®

®®®®

This section will go away, but the paragraph below needs to go somewhere. I am not sure where yet.

??

NSF research grant title hereI'm sure there's a fancy title associated with the grantBaker Tools? what are they called?
